- 

**Unit includes / Parts names**

**2 x shelf**

**2 x frame**

**2 x swivel castors without brake**

**2 x swivel castors with brake**

**8 x M8 screw**

**8 x washer**

**8 x nut**

**4 x bumper**

**1 x Allen key**

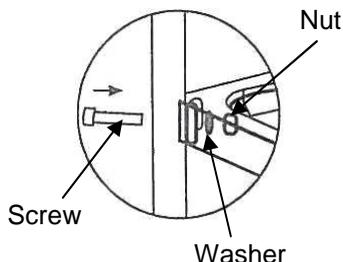

**1 x wrench**

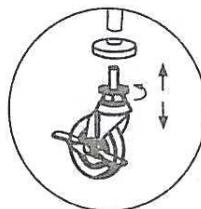

## ASSEMBLY:

1. Unpack the unit's parts and ensure all of them are present.  
Remove all packing material.

2. Begin assembly by mounting the shelves to the frame.  
Screw in the shelves using the included Allen key, beginning with the washers and nuts.

3. Turn the trolley upside-down and screw the swivel castors into the frame. Place the bumpers above the castors.

4. Carefully place the trolley on the ground and ensure all the castors are touching the floor. Turn the screws tightly with the Allen key. Use the wrench included to turn the nuts tightly.
5. The height of the wheels can be regulated as needed using the hex nuts.

### **NOTE!**

***Remove the protective film after assembly!***
